## NOTES

N/A

## METHODOLOGY COMMENTS

- As one of only two retailers in WA, Horizon's solar export price is compared to the average of all retailers in the Guide rather than the state average. As Horizon offers different export prices at different locations across WA, the prices offered in the 8 most populous towns were averaged to generate a figure with which to compare against the national average.
- Horizon did not confirm position on purchasing electricity from burning of native forest wood waste. Score assigned as per information available for 2014 Guide.

# Results Explainer

**Score:** Overall score, combining weighted criteria scores

**Rank:** Position out of 23 included retailers

Operates in: [STATES]  
Responded to survey: [YES/NO]

## KEY POINTS

- Notes on any good/excellent aspects of performance by the retailer
- Notes on any average aspects of performance by the retailer
- Notes on any poor aspects of performance by the retailer
- Notes on any neutral aspects of the retailer

The section below presents the retailer's datapoint for each sub-criteria, and the raw score out of 10 received for that sub-criteria. Weightings are then applied to each sub-criteria in order to calculate each criteria score. The criteria scores are then weighted again to produce the overall score. See Methodology for details of weightings.
